

**Heads of scientific and
educational organizations in Russia**

*About the presentation of your scientific potential
organizations at an international exhibition
«EXPO - RUSSIA IRAN 2024» in Tehran*

Dear Directors

We invite the delegation of your scientific organization and you personally to take part in the Second Russian-Iranian International Industrial Exhibition “EXPO-RUSSIA IRAN 2024” and Tehran Business Forum in the capital of the Islamic Republic of Iran, which will take place in Iran from October 21 to October 23, 2024. The organizer is Zarubezh-Expo JSC, co-organizer is the Iranian Research Organization for Science and Technology (IROST) and the International Science and Technology Park of the Islamic Republic of Iran. Our organization is subordinate to the Ministry of Science, Research and Technology of Iran by decision of the Revolutionary Council in 1980. IROST is engaged in the development of strategies, R&D systems, management, forecasting and assessment, development of science and technology for economic progress. IROST has made great strides in providing alternative energy sources, namely solar energy, biodiesel from microalgae and bioethanol from agricultural waste. IROST has also made progress in the medical and pharmaceutical and space industry.

IROST conducts research in collaboration with international organizations :

- United Nations Educational, Scientific and Cultural Organization (UNESCO)
- World Intellectual Property Organization (WIPO)
- United Nations Development Program (UNDP)
- Standing Committee of the Islamic Conference on Scientific Cooperation (COMSTEC)
- Commission on Science and Technology for Development in the South (COMSATS
- Third World Academy of Sciences (TWAS)
- International Federation of Inventors Association (IFIA)
- Indian Ocean Association for Regional Cooperation

The decision to organize the next stage of the exhibition in a friendly state was made on the basis of the successful and productive holding of the first exhibition in Tehran in October last year, including the scientific and educational block of the business program. The upcoming exhibition in Iran is multidisciplinary, so innovative developments in mechanical engineering, metallurgy, energy, petrochemical and gas industries, chemical industry, construction, transport, information technology, medicine and pharmaceuticals, education, science, and agro-industrial complex will be presented. Particular attention was paid to the field of science and education, presentation to foreign partners of the achievements of Russian science, professional education, developers of textbooks and interactive visual aids.

As part of the exhibition and forum, the “Days of Science and Education” will be held on October 22 and 23, 2024. We believe that the following events will be of interest to Russian scientists:

- Round table: “Challenges and prospects of international inter-university scientific cooperation in the context of overcoming challenges and threats to the world order.”
- Scientific and practical conference “Priorities and directions of international cooperation between the CIS and Iran in the field of science and education”

The heads of the Iranian Ministry of Education, the Ministry of Science, Research and Technology, the Iranian Academy of Sciences, the Office of Student Affairs, rectors, teachers and students of Iran's leading universities: Tehran University, Tehran University of Medical Science, Tarbiyat-e-Mordares University, Sharif University of Technology, Nasir ad-Din Tusi University and others are invited to the above events.

In accordance with your wishes, IROST can organize targeted meetings with Iranian scientific leaders in order to conclude cooperation agreements. If your organization is interested in participating in the “Days of Science and Education in Iran” within the framework of “EXPO - RUSSIA IRAN 2024” please inform the organizing committee and contact the co-organizer from the Russian side, "Zarubezh-Expo" JSC, tel: +7 (495)721-3236, www.ExpoRF.ru, info@zarubezhexpo.ru.

Sincerely,

Deputy Minister of Science, Research and Technology
President of the Iranian Research Organization for Science
and Technology (IROST)

Hassan ZAMANYAN
